Phone: +36 70 359 6030

Dogs are accommodated in purpose-built kennels, or upon request, inside the residential house in a family-like environment.

Cats are accommodated in furnished rooms.

The boarding facility operates continuously. Drop-off and pick-up take place at pre-arranged times agreed by phone.

The boarding facility is closed on December 24–25.

Obligations of the Boarding Facility

The boarding facility undertakes the care of dogs and cats with the diligence of a responsible owner, in accordance with the conditions set out in these regulations.

Accommodation

- on a 1-hectare area
- in 16 separate garden areas
- in 16 indoor kennels
- according to the individual needs agreed upon at intake
- considering gender ratio and social compatibility (maximum 5 intact male dogs at the same time)
- only animals free from infectious diseases and external/internal parasites are accepted
- non-infectious illnesses, post-operative rehabilitation, behavioral issues, or heat cycles are not exclusion factors, as proper separation is ensured (prior consultation required)
- animals are checked multiple times daily for behavior and health status
- rapid response is ensured in case of issues (e.g. tick removal, wound care, etc.)

Capacity:

- Dogs: from a maximum of 16 owners
- Cats: from a maximum of 3 owners

Obligations of the Owner

The owner is required to comply with all provisions of these regulations.

- By signing the contract, the owner accepts the prices and operating regulations of the Tarka-Falka Boarding Facility.
- The owner must provide detailed information about the animal's habits, needs, and condition.

Drop-off and Pick-up

- Drop-off and pick-up are only possible at pre-arranged times.
- At check-in, a form must be completed including:
 - owner's details (name, address, phone number, e-mail)
 - animal's details (name, breed, sex, age, etc.)
 - duration of stay
 - feeding routine and specific characteristics

At drop-off, the following must be provided:

- vaccination record with valid vaccinations
- food
- personal items (toys, bedding, leash, etc.)
- dogs arriving with a harness must also have a collar

Veterinary Requirements

- The facility operates under veterinary supervision.
- All animals must have the required vaccinations.
- Animals must be free from external and internal parasites (e.g. deworming at least 5 days prior, but not older than 2 months).
- In case of illness, the animal will be isolated and receive veterinary care as soon as possible.
- The owner accepts that decisions in case of illness are made by the head of the boarding facility.
- Non-life-saving surgery and euthanasia may only be decided by the owner.
- Veterinary costs incurred during boarding are the responsibility of the owner, unless caused by the facility.

In case of death:

- procedures are carried out in consultation with the owner
- possibility of examination at the NÉBIH laboratory in Kaposvár

- possibility of pet cremation
 - all related costs are borne by the owner
-

Care and Feeding

- Food is usually provided by the owner (the facility can supply it upon request at additional cost)
 - Feeding follows the animal's age and routine
 - special dietary needs (e.g. frozen storage) require prior agreement
 - fresh drinking water is always available
 - dogs are exercised under supervision in the large yard or can roam freely in the gardens
 - dogs kept in kennels are walked several times daily on a leash
 - dogs spend the night in kennels unless otherwise agreed
-

Hygiene Conditions

- Wastewater is managed through a collection system
 - all kennels and feeding bowls are disinfected before each new arrival
 - kennels are cleaned daily (immediately if necessary)
 - disinfection is carried out using high-pressure equipment
 - only animal- and environment-friendly cleaning agents are used
 - feeding and drinking bowls are disinfected with chlorine-based products
 - cleaning materials are stored safely out of reach of animals
 - animal waste is composted
-

Services and Prices

- Current prices are available on the website
 - services must be paid in advance
-

Transport

- Transport for drop-off and pick-up can be requested
-

Other Provisions

- Z9Z Bt. ensures compliance with these operating regulations
- the owner accepts the terms of the boarding facility

If the owner does not collect the animal after the agreed period and remains unreachable:

- ownership of the animal transfers to the boarding facility after 5 days

In case of non-payment:

- all costs are borne by the owner
- additional costs (microchipping, vaccinations, feeding) may be charged
- legal action may be initiated
- ongoing costs continue to accrue

Somogyaszaló, 02.07.2025.
